Professional Summary

AI Engineer specializing in productionizing machine learning models. Expertise in MLOps, model deployment, and scalable AI systems. Proficient in Docker, Kubernetes, FastAPI, and CI/CD pipelines. Passionate about bridging the gap between research and production.

Technical Skills

ML Deployment: Docker, Kubernetes, FastAPI
MLOps: MLflow, Kubeflow, Airflow
Cloud AI: AWS Bedrock, GCP AI Platform
Programming: Python, Go, Rust

Work Experience

AI Engineer at TechCorp AI (2020-Present)

- Deployed 15+ ML models to production
- Reduced inference latency by 40%
- Implemented CI/CD pipelines for ML

Education

MS in Artificial Intelligence from MIT (2020)

Certifications

Google Professional Machine Learning Engineer
AWS Certified DevOps Engineer

Languages

English: Native
French: Intermediate
